- (c) the disbursement in respect of tuition fees to another board by a board from its current funds, or on its behalf by another board, in the preceding year, but not including fees paid to a board established under section 12 of *The Public Schools Act* which operated a school in a cerebral palsy treatment centre;
- (d) the portion of the cost approved by the Minister for grant purposes in respect of disbursements made by a board from its current funds in the preceding year, except as set forth under section 13, for,

- (ii) fuel and electricity where the board qualifies for a grant under subsection 4 of section 10 and the assessment per classroom unit is less than \$30,000,
- (iii) restoration of insured school property destroyed or damaged, but not exceeding an amount equal to the insurance proceeds received in respect thereof, and
- (iv) the fee for membership in the Ontario School Trustees' Council and the fee paid for membership in one member association of the Ontario School Trustees' Council,

less current-fund receipts during the preceding year as follows,

- (f) tuition fees from another board;
- (g) amounts transferred to current funds from capital funds;
- (h) insurance proceeds;
- (i) proceeds from the sale of school buildings and equipment; and
- (j) refunds and reimbursements connected with disbursements previously included in recognized cost.

(2) In this Part, "recognized extraordinary expenditure per class-room" for a board operating a school means the quotient obtained by dividing the sum of the amounts recognized for grant purposes for debenture payments, for capital outlays from current funds, and for transportation, by the number of class-rooms recognized for grant purposes, but excluding from the calculation the fractions of class-rooms to which the board of a larger unit of administration is entitled in subclause i of clause b of subsection 3.

(3) In this Part,

(a) "assessment" means,

- (i) the assessment of all property, including any business assessment, rateable for public-school purposes in the public-school section or for separate-school purposes in the area prescribed under section 48 of *The Separate Schools Act*, as the case may be, as shown on the assessment roll on which taxes were levied for the preceding year, adjusted by the provincial equalizing factor, or
- (ii) where money is received by the board under section 35 of *The Assessment Act* or clause b of section 5 of Ontario Regulations 114/60, the assessment as set forth in subclause i, together with an amount equivalent to that which, if levied upon at the rate of real-property taxation on the rate-payers of the school-section or separate-school organization for school purposes, would result in taxes equal to the moneys so received by the board, adjusted by the provincial equalizing factor,

but where the assessment per class-room to be used for a board in the calculation of the grant under subsection 4 or 6 of section 10 is more than 110 per cent of the assessment per class-room used for that board in the preceding year, the assessment per class-room of that board means,

(a) 110 per cent of the latter assessment, or

(b) 50 per cent of the actual assessment per class-room,

whichever is the greater, or

(iii) where there is no assessment for school purposes, the assessment per class-room shall be deemed to be \$400,000;

(b) "number of class-rooms" means,

(i) for the board of a larger unit of administration that operates a school, the number of open class-rooms on the first school-day of the current year, together with one-half of a class-room for each of the former school-sections or separate-school areas in which the board is not operating a school and which are included in the larger unit,

(ii) for a board all of whose pupils are attending a school operated by another board, the quotient, adjusted to the next largest whole number, obtained by dividing the number of those pupils enrolled on the first school-day of the current year by 39,

(iii) for a board operating a school and having more than twenty pupils enrolled on the first school-day in the current year at a school operated by another board, the number of open class-rooms on the first school-day of the current year added to the quotient, adjusted to the next largest whole number, obtained by dividing the number of those pupils by 39, and

(iv) for other boards, the number of open class-rooms on the first school-day of the current year,

but in determining the number of open class-rooms, open class-rooms in excess of the number in subsection 3 of section 8 shall not be counted;

(c) "cost of operating" means,

(i) the total of the disbursements for the normal operation of the board for school purposes, exclusive of payments in respect of principal, interest, and other charges on debentures issued and capital loans obtained on or after the 1st day of January, 1951, paid out of current funds by a board or on its behalf during the preceding year, and

(ii) payments by a board or on its behalf in respect of principal, interest, and other charges due in the current year on debentures issued and capital loans obtained on or after the 1st day of January, 1951,

less current-fund receipts during the preceding year as follows,

- (iii) tuition fees from another board, and
- (iv) reimbursement for transportation of non-resident pupils;
- (d) "larger unit of administration" means a township school area or a union of separate-school areas;
- (e) "open class-room" means a class-room used throughout each school-day by pupils in the charge of a teacher, and where a class-room is used for half of each school-day for kindergarten purposes, the class-room is half an open class-room; and
- (f) "population" means the population of the municipality as shown on the assessment roll on which taxes for the preceding year were levied, less the number of inmates of public institutions.

AVERAGE DAILY ATTENDANCE

8.—(1) Subject to subsection 2, for the purpose of subclause i of clause e of subsection 1 of section 7, the average daily attendance shall be the average daily attendance for the preceding year together with any additional average daily attendance to which the board is entitled under section 9.

(2) The average daily attendance shall be not less than the figure computed by multiplying the number of open class-rooms by 30, but, subject to subsection 3, the number of open class-rooms for this purpose shall be, the number of open class-rooms actually in operation on the first school-day of the current year.

(3) The number of open class-rooms shall not exceed,

- (a) where the average daily attendance for an urban board is 300 or more or for a rural board is 1,200 or more, the number determined by dividing the average daily attendance by 30 and making no allowance for any remaining fraction; or
- (b) where the average daily attendance for an urban board is less than 300 or for a rural board is less than 1,200,
 - (i) in the case of each school with an average daily attendance of less than 300, the number determined by dividing the average daily attendance by 33 and allowing an additional room for any remaining fraction, and
 - (ii) in the case of the schools with an average daily attendance of 300 or more, the number determined by dividing the combined average daily attendance of those schools by 30 and making no allowance for any remaining fraction.

(4) For the purposes of determining the grant in respect of average daily attendance provided in section 10, "average daily attendance" for a board means average daily attendance of pupils for the previous year together with any additional average daily attendance to which the board is entitled under section 9.

9.—(1) Where, in the preceding year, a board operated for a term one or more auxiliary classes or units, the average daily attendance, as determined under section 8, shall be increased for that term by adding thereto,

- (a) ten for each hard-of-hearing class, hospital class, orthopaedic class, limited vision class, and each full-time home-instruction teacher;
- (b) four for each opportunity class, and each full-time speech-correction teacher;
- (c) one for each gifted-children class, institutional class and health class;
- (d) one for each school which used the services of an approved itinerant auxiliary teacher or teachers, and which is operated by the board in a municipality with a population under 25,000;
- (e) one for each home-instruction and orthopaedic unit;
- (f) one-quarter for each limited vision unit;
- (g) one-quarter for each opportunity unit in schools not served by an itinerant auxiliary teacher;

but,

- (h) the increase in average daily attendance under clause g shall not exceed one-quarter per school per term; and
- (i) the increase in average daily attendance under each of clauses e, f and g shall not exceed fifteen for the board per term.

(2) Where, in the preceding year, a board operated one or more industrial-arts or home-economics class-rooms for a term, the average daily attendance, as determined under section 8, shall be increased for each of those class-rooms by the number set forth in column 2 in accordance with the average daily attendance of all pupils attending the school in the preceding year set opposite thereto in column 1 as follows:

COLUMN 1	COLUMN 2
Average daily attendance of school	Number per term to be added
Under 50	$\frac{1}{2}$

100 but under 200	$1\frac{1}{2}$
200 but under 300	2
300 or more	$2\frac{1}{2}$

(3) Where, in the preceding year, the pupils of two or more schools operated by a board received instruction in industrial arts or home economics in one school operated by that board, the average daily attendance of those schools shall be added together for the purposes of subsection 2.

(3) A board that operated a school in the preceding year and that was supported by assessment from an urban municipality having a population of 13,000 or more but under 90,000, subject to subsection 5, shall be paid a grant of a percentage of the recognized cost and a grant per pupil of average daily attendance in accordance with the recognized extraordinary expenditure per class-room given at the top of the Table and with the assessment per class-room given in column 1 of the Table as follows:

(7) A board that operated a school for only one term in the preceding year shall be paid a grant for that term calculated under the provisions of subsection 2, 3, 4 or 5, whichever is applicable, and for the other term, under the provisions of subsection 6.

(8) In addition to the grants under subsection 1, 2, 3, 4, 5 or 7, whichever is applicable, the board of a public or separate school shall be paid an additional grant of \$3 per pupil in respect of the increased average daily attendance under subsection 1 of section 9.

11.—(1) In addition to the grant under subsection 2, 4, 6 or 7 of section 10, there shall be paid,

- (a) a grant of \$300 to each board in the year preceding that in which it enters a larger unit of administration;
- (b) a grant of \$300 to the board of a larger unit of administration in respect of each former school-section or former separate-school area where the larger unit of administration included two or more but less than six former school-sections or former separate-school areas in the current year; or
- (c) a grant of \$500 to the board of a larger unit of administration in respect of each former school-section or separate-school area where the larger unit of administration included six or more former school-sections or separate-school areas in the current year.

(2) In the year preceding that in which a former school-section or a former separate-school area is withdrawn from a larger unit of administration, no grant in respect of that section or area shall be paid under subsection 1.

TRANSFER OF SECTIONS AND AREAS

12.—(1) Where the whole of a public-school section, or a separate-school area, is transferred from one board to another, the grant for the former board for the year of the transfer shall be calculated as though there had been no transfer and be paid to the latter board.

(2) Where part of a school-section or a separate-school area is transferred from one board to another, for the year of the transfer,

- (a) the grant, exclusive of the grant calculated under subsection 1 of section 11, shall be calculated as though there had been no transfer;
- (b) the portion of the grant calculated in respect of the debenture instalment levied exclusively either on the part remaining or on the part transferred shall be paid to the board of the school-section or separate-school area in the part remaining or in the part transferred, as the case may be;
- (c) the remainder of the grant calculated under clause *a* shall be paid to each board in the proportion that the number of pupils, including those on whose behalf the board incurred fees, residing in the remaining part and residing in the part transferred, respectively, bears on the last school-day of September preceding the transfer, to the number of pupils, including those on whose behalf the board incurred fees, residing in the section or area being divided; and
- (d) where applicable, the grant under subsection 1 of section 11 shall be calculated in respect of the number of former sections or areas remaining in the larger unit of administration and be paid to the board of the larger unit of administration.

NEW BOARDS, BOARDS NOT OPERATING A SCHOOL, AND BOARDS COMMENCING OPERATION OF A SCHOOL

13.—(1) In the year in which a new board is established, other than a board assuming jurisdiction for school purposes of an area previously administered by another board, and in the next two years thereafter, provided that the newly formed board has not operated a school for a year, the average daily attendance and recognized cost of the current year shall be used for the purposes of this Part.

(2) Subject to subsections 3, 4 and 6, where, for a period of three years, a board has not operated a school, the recognized cost for the preceding year shall be used for the purposes of this Part, but shall not include a disbursement from current funds in the preceding year for a service received in the next preceding year, or years, upon which a grant has been paid.

(3) In the year in which a board commences operation of a school prior to the first school-day in September, provided that the board or any former board incorporated therein has not operated a school for a year, the average daily attendance and recognized cost of the current year shall be used for the purposes of this Part.

(4) In the year in which a board commences operation of a school on or after the first school-day in September and in the year following, provided that the board or any former board incorporated therein has not previously operated a school, the average daily attendance and recognized cost of the current year shall be used for the purposes of this Part.

(5) In each year following that in which a board has operated a school for a year, recognized cost shall not include a disbursement from current funds in the preceding year for a service received in the next preceding year, or years, upon which a grant has been paid.

(6) A disbursement for capital charges or for capital outlays from current funds shall not be included in recognized cost for more than one year.

MILK

14. The board of a public or separate school shall be paid a grant equal to 50 per cent of the amount expended in the preceding year for the purchase of milk for consumption by its pupils on school days between 8.45 a.m. and 4.00 p.m., and supplied to them free of charge, less that portion of any amount contributed for the purchase of milk from any source which is in excess of 50 per cent of the amount so expended.

BOARDS APPOINTED UNDER SECTION 12 OF *The Public Schools Act*

15.—(1) Where a rural school-section is designated and a board appointed under subsection 1 of section 12 of *The Public Schools Act*, "recognized cost" means the total amount of money paid out of current revenue during the preceding year for the operation of the school or schools under the jurisdiction of the board, inclusive of tuition fees paid to any other board but exclusive of capital expenditures and expenditures for evening courses of study, textbooks, library books, milk, and rent, and less tuition fees received from any other board.

(2) The board so appointed shall be paid a grant of 50 per cent of the recognized cost as defined in subsection 1, but where the board operates a school in a sanatorium, a hospital or a centre for the treatment of cerebral palsy established under section 12 of *The Public Schools Act*, the grant shall be 80 per cent of the instructional salaries, 50 per cent of the tuition fees, and 50 per cent of the recognized cost for transportation as defined in subclause *i* of clause *d* of subsection 1 of section 7, of pupils going to other schools, as paid in each case in the preceding year.

PART 2

HIGH SCHOOLS, CONTINUATION SCHOOLS,
AND VOCATIONAL SCHOOLS

APPLICATION

16. This Part applies to general legislative grants in respect of high schools, continuation schools, and vocational schools.

INTERPRETATION

17.—(1) In sections 20 and 24, subject to subsection 2, "recognized cost" means,

- (a) that portion approved by the Minister for grant purposes of the payment, or of the amount set aside for payment, by a board from its current funds, or on its behalf by a municipal council, in the current year on principal and interest due in that year on debentures and capital loans other than those in respect of buildings, additions to buildings or equipment upon which a grant is provided by section 21;
- (b) the disbursement from current funds made by a board, or on its behalf by another board, during the preceding year in respect of tuition fees to another board for pupils attending a secondary school operated by that board and, where subsection 1 of section 23 is applicable, tuition fees with respect to the year preceding the transfer which are owed to the board of any former district transferred to a new district by any other board transferred to that district;
- (c) the portion of the cost approved by the Minister for grant purposes in respect of disbursements made by a board from its current funds in the preceding year, except as otherwise provided in section 24, for,
 - (i) transportation of pupils to and from school where their parents or guardians do not contribute directly to the cost of the transportation,
 - (ii) capital outlays for new buildings, for additions to buildings, and for equipment for new class-rooms,
 - (iii) capital outlays for school buses for the transportation of pupils, and
 - (iv) capital outlays for new heating-equipment, for new lighting, and for new sanitary-conveniences of a modern type, in schools already in operation where the average population of the municipalities within or partly within the high- or continuation-school district, whether or not only part of any municipality is included in the district, is under 3000; and
- (d) the total disbursements made by a board from its current funds in the preceding year, except as otherwise provided in section 24, in respect of,
 - (i) the fee paid for membership in the Ontario School Trustees' Council and the fee paid for membership in one member association of the Ontario School Trustees' Council,
 - (ii) restoration of insured school-property destroyed or damaged, but not exceeding an amount equal to the insurance proceeds received in respect thereof;

less current-fund receipts during the preceding year as follows,

- (e) amounts transferred to current funds from capital funds;
- (f) insurance proceeds;
- (g) proceeds from the sale of school buildings and equipment; and
- (h) refunds and reimbursements connected with disbursements previously included in recognized cost.

(2) Except where grants are payable under section 21, debenture charges and capital outlays from current funds shall form part of the recognized cost only in the proportion that the average daily attendance of all pupils attending the schools under the jurisdiction of a board, exclusive of the average daily attendance of pupils whose fees are payable by another board, bears to the total average daily attendance in those schools.

(3) In this Part, "recognized extraordinary expenditure per pupil" for a board operating a secondary school means the quotient obtained by dividing the sum of the amounts recognized for grant purposes under this Part for debenture payments due in the current year, for capital outlays from current funds, and for transportation by the average daily attendance of all pupils that attended the school or schools operated by the board during the preceding year, but excluding the average daily attendance of those pupils whose fees are payable by another board.

(4) In this Part,

- (a) "assessment" means,
 - (i) the assessment of all property, including any business assessment, rateable for school purposes in each municipality within or partly within the high- or continuation-school district, whether or not only part of any municipality is included in the district, as shown on the assessment roll on which taxes were levied for the preceding year, adjusted by the provincial equalizing factor, or
 - (ii) where money is received by the board under section 35 of *The Assessment Act* or clause b of section 5 of Ontario Regulations 114/60, the assessment as set forth in subclause i, together with an amount equivalent to that which, if levied upon at the rate of real-property taxation on the rate-payers of the high- or continuation-school district for school purposes, would result in taxes equal to the money so received by the board, adjusted by the provincial equalizing factor;
- (b) "population" means the total population of each municipality within or partly within the high- or continuation-school district, whether or not only part of the municipality is included in the district, as shown by the assessment rolls on which taxes for the preceding year were levied, less the number of inmates of public institutions;

(c) "assessment per capita" means the quotient obtained by dividing the number representing the total assessment of the municipalities within or partly within the high- or continuation-school district by the number representing the total population of the municipalities, but where there is no assessment for school purposes, the assessment per capita shall be deemed to be \$2600; and

(d) "cost of operating" means,

(i) the total of the disbursements for the normal operation of a board for school purposes, exclusive of payments in respect of principal, interest, and other charges on debentures and capital loans, paid out of current funds by a board or on its behalf during the preceding year, and

(ii) payments by a board or on its behalf in respect of principal, interest and other charges during the current year on debentures and capital loans,

less current-fund receipts during the preceding year as follows,

(iii) tuition fees, and

(iv) reimbursement for the cost of education of pupils residing in a part of a territorial district that is not in a secondary-school district.

AVERAGE DAILY ATTENDANCE

18.—(1) Subject to subsection 2, "average daily attendance" for a board for the purpose of determining the grant in respect of average daily attendance provided in section 20, means average daily attendance of pupils in the school or schools operated by the board in the preceding year, exclusive of the average daily attendance of pupils whose fees are payable by another board but inclusive of any additional average daily attendance to which the board is entitled under section 19.

(2) For the purposes of subsection 1, the average daily attendance of a high or continuation school shall be not less than the figure computed by subtracting the average daily attendance of pupils whose fees are payable by another board and who attended the school from twenty, or in the case of a school on an island or in a territorial district, from forty.

19.—(1) Where, in the preceding year, a board operated one or more departments of agriculture for a term, the average daily attendance, as provided in section 18, shall be increased for each department by the number set forth in column 2 in accordance with the average daily attendance of all pupils attending the school in the preceding year set opposite thereto in column 1 as follows:

COLUMN 1	COLUMN 2
Average daily attendance of school	Number per term to be added
Under 100	5
100 but under 200	7½
200 but under 300	10
300 or more	12½

(2) Where, in the preceding year, a board operated one or more industrial-arts or home-economics class-rooms in a high or continuation school for a term, the average daily attendance, as provided in section 18, shall be increased for each of those class-rooms by the number set forth in column 2 in accordance with the average daily attendance of all pupils attending the school in the preceding year set opposite thereto in column 1 as follows:

COLUMN 1	COLUMN 2
Average daily attendance of school	Number per term to be added
Under 50	½
50 but under 100	1
100 but under 200	1½
200 but under 300	2
300 or more	2½

(3) Where, in the preceding year, the pupils of two or more schools operated by a board received instruction in industrial arts or home economics in one school operated by that board, the average daily attendance of those schools shall be added together for the purpose of subsection 2.

(4) Where, in the preceding year, a board operated one or more home-instruction units, the average daily attendance, as provided in section 18, shall be increased by one for each term in which the unit was operated.

Where the whole or part of a municipality is annexed to an urban municipality on or after the 1st day of January, 1949, and at the date of annexation there were outstanding debentures for one or more school buildings in that municipality or part, as the case may be, the payments on the debentures to the extent that they were eligible for grant for the board of the school-section, separate-school area, or high-school district in the area annexed in the year of annexation shall, except in the year of annexation, form part of the recognized cost of the public-, separate- or high-school board of the urban municipality and the grant thereon shall be calculated at the rate applicable to,

PART VI

OPERATING AND MAINTENANCE PROCEDURES

162.—(1) Every company shall formulate in writing a plan of operating and maintenance procedures in accordance with these regulations and shall,

- (b) operate and maintain its facilities in conformance with the plan;
- (c) modify the plan from time to time to reflect its best experience and changes in operating conditions; and
- (*d*) keep detailed records of failures, leaks, repairs, tests, inspections, pressure recording charts, odorant concentration tests and other information relevant to the administration of the plan.

(2) In addition to any other consequence or penalty provided by the Act or these regulations, where a company fails to comply with subregulation 1, the company shall not install any new service in the period during which the failure to comply continues.

163. Where a leak, serious corrosion, impaired equipment or condition likely to cause impairment or other defect or latent defect is discovered, and public safety is endangered thereby, the defective part shall be repaired or replaced immediately.

164.—(1) The plan of operating and maintenance procedures shall include a pipe line patrol program to observe conditions on and adjacent to the pipe line right of way, indications of leaks, construction activity and any other factors affecting the safe operation of the pipe line and its components.

(2) The patrols shall be sufficiently frequent to ensure the safe operation of the pipe line, having regard to the prevailing weather, terrain, size of line, operating pressures and class of location.

165.—(1) The pipe line patrol program shall include regular surveys for detecting leaks likely to affect public safety by an effective method, which may consist of,

- (a) gas detector surveys;
- (b) bar test surveys;
- (c) vegetation surveys;
- (*d*) pressure drop surveys; or
- (e) testing exposed pipe or fittings by means of soapsuds.

(2) The frequency of leakage surveys shall be determined by the condition of the pipe line and by the density of the population and the consequences of an undetected leak.

166. The plan of operating and maintenance procedures shall include periodic inspections and tests to determine whether the methods used for control of corrosion are adequate and are properly maintaining protection to the pipe line.

167. The plan of operating and maintenance procedures shall include sound procedures for,

- (a) starting, operating and shutting down gas compressor units;
- (b) periodic inspections for corrosion in gas compressor stations at intervals sufficiently frequent to discover corrosion before serious impairment of the strength of pipe or equipment has occurred; and
- (c) the isolation of units or sections of piping for the purpose of maintenance and for purging the units or piping before returning them to service.

168. The plan of the operating and maintenance procedures shall include systematic periodic inspection and testing of pipe-type holders or bottle-type holders, providing for,

- (a) the detection of external corrosion before the strength of the holder has been impaired;
- (b) periodic sampling and testing of gas in storage to determine the dew point of vapours in the stored gas that might cause internal corrosion or interfere with the safe operation of the storage plant; and
- (c) inspection of the pressure control and pressure limiting equipment and periodic testing to determine if it is in a safe operating condition and has an adequate capacity.

169. The plan of operating and maintenance procedures shall include systematic periodic inspections and testing of pressure limiting stations, pressure relief devices and pressure regulating stations, sufficient to keep the company informed of,

- (a) their mechanical condition;

- (*d*) the existence of dirt, liquids and other conditions that might prevent proper operation.

170. The plan of operating and maintenance procedures shall include systematic periodic inspection, servicing and testing of valves, including,

- (a) inspecting the alignment to ensure the valve can be turned by a key or wrench;
- (b) the removal of any matter that might interfere with the use of the valve; and
- (c) lubrication of the valve.

171. The plan of operating and maintenance procedure shall include systematic periodic inspection of structures housing pressure regulating or pressure limiting equipment, sufficient to determine whether,

- (a) the structure is in good physical condition and adequately vented;
- (b) any gas is present in the atmosphere of the structure;
- (c) the ventilating equipment is functioning properly; and
- (d) the vault or pit cover is safe.

172.—(1) When a service line is abandoned,

- (a) it shall be cut as near to the pipe line to which it connects as is practicable;
- (b) the service shut-off valve box shall be removed or effectively plugged and if the valve is left in the service line it shall be turned to the closed position;
- (c) the service line shall be sealed at the place where it enters the wall of the building it served; and
- (d) all open ends in the service line shall be sealed.

(2) Sealing shall be of such a nature as to effectively prevent the flow of gas.

(3) A service line shall be deemed to be abandoned where,

- (a) the building it serves is removed or torn down;
- (b) it is replaced with another service line;
- (c) it is in a condition that is not suitable for the service intended;
- (d) it is in a condition that may cause a hazard to the public safety; or
- (e) the meter it serves has been removed or the supply of gas has been shut off for a period of ten years.

(4) Subject to subregulation 5, this regulation applies to service lines that have been abandoned and remain abandoned when these regulations come into force or that are abandoned thereafter.

(5) Where a meter has been removed or the supply of gas to a meter has been shut off and the meter remains removed and the supply remains shut off when these regulations come into force, the periods referred to in clause *e* of subregulation 3 and in clause *c* of subregulation 2 of regulation 140 shall be deemed to begin to run when these regulations come into force.

173.—(1) Where a pipe line other than a service line is abandoned and not removed and is disconnected or separated, it shall be thoroughly purged of gas and the end shall be capped, plugged or otherwise effectively sealed.

(2) Where the major portion of a gas piping system is abandoned, the system shall be cut into as many parts as will render the abandoned piping system safe.

174. No person shall smoke or ignite a spark or flame, or permit a flame to burn in an area of a gas compressor station in which gas may be present in the atmosphere, whether from undiscovered leaks or any other source.

175. Gas that is distributed to consumers through service lines or used for domestic purposes in compressor plants, and that does not naturally possess a distinctive odour so that concentrations of one-fifth of the lower explosive limit and above, are readily detectable, shall have an odour added to it to make it detectable by sense of smell at concentrations of one-fifth of the lower explosive limit or less.
